EXPRESS YOUR STYLE

DISTRICT gives a contemporary and trendy allure to your decor while maintaining a clear and refined line. Elements such as glass, wood, metal and ceramic, provide a dramatic and luxurious spirit.

Designed for modern professionals living in an urban center, it recreates their daily business life with an emphasis on freedom and independence.

Express your style without hesitation!

A clean and defined line.

Originality is at the heart of the design. Blending raw material elements such as natural stone, forged metals and factory brick gives that industrial or loft look that many find comfortable and sustainable. Re-purposed factories and barns give inspiration to many great urban designs.

We suggest mixing materials such as granite, chrome and steel. For example, this suite, we chose to incorporate a metal base mounted by a magnificent ceramic tabletop.

Glass is also an interesting option. A clean material that remains relatively discreet but incredibly chic.

Minimalism is the heart of most contemporary design. Be cutting-edge with original pieces. Invest in unique artwork created by a local artist to highlight your dining space and create great conversation.

Key trends are neutrals, every shade of white and lighting. A splash of color puts your signature on the design.

DISTRICT

The basic color scheme, for both walls and floors, should be neutral colors such as off-white tending to creamy gray, beige, gray or deep black. Setting the ensemble with neutral colors as a backdrop. Add a large area rug and cushions with hues of purple or blue-green as a color element that will blend beautifully with your sophisticated décor.

Decoration is the art of creating a personalized home! ■

BUFFET
BB-112078

Moving into a smaller space does not mean less room to entertain. Add stools to the island, or counter, a bench at the dining table. Complete the look with a buffet in the living room for additional storage.
